

"Climate change, impacts and vulnerability in Europe 2012 ", publicado por la European Environment Agency (EEA)

[EEA Report No 12/2012](#) ; 21/11/2012

Abstract: This European Environment Agency (EEA) report presents information on past and projected climate change and related impacts in Europe, based on a range of indicators. The report also assesses the vulnerability of society, human health and ecosystems in Europe and identifies those regions in Europe most at risk from climate change. Furthermore, the report discusses the principle sources of uncertainty for the indicators and notes how monitoring and scenario development can improve our understanding of climate change, its impacts and related vulnerabilities.
