European Red List of Marine Fishes

[European Red List of Marine Fishes](#) . Publications Office of the European Union, 2015.
ISBN: 978-92-79-45412-7. DOI: 10.2779/082723

Abstract: The European Red List is a review of the conservation status of European species according to IUCN regional Red Listing guidelines. It identifies those species that are threatened with extinction at the regional level, so that appropriate conservation action can be taken to improve their status. This Red List publication summarises results for all described native European marine fishes.
